

Project History

- Stage 1/Phase 1 Started in 2008
- Aim of safeguarding Lunawa Lagoon, Weras Ganga and Bolgoda Lake
- Funded by Swedish International Development Cooperation Agency (SIDA)
- Constructed Wastewater Treatment Plant with a capacity of 17500 m³/day , 4 Pump Houses and 43 km of collection network

Project Objectives

- To increase coverage up to 65% of the project area in the year 2040.
- To improve the general environment
- To improve health conditions
- To keep the surface drains and water ways in the surround free

Project Coverage Area

Rathmalana DSD - XX GNDs
Moratuwa DSD - XX GNDs

Project Partners

Support from Partners

- To expediate on lane acquisition process and support for the coordination with relevant offices
- To support the community mobilization towards project objectives in order to increase the no of connections enabling the effective results of project implementation
- To actively involve in avoiding delays due to community restraints
- To coordinate in road excavation and reinstatement work
- To support alternative road identification and parking facilities during construction

How to get connected to sewerage system

- 100% free (lateral connection including Interceptor Chamber [IC] during the construction period)
- Domestic property connections will be provided out of project cost during construction period
- Sewerage Tariff is minimal
- Average monthly Sewerage charge for a family would be Rs. 250 (inclusive of maximum Rs.200 of service charge)

Advantages to the beneficiaries

- Space and Maintenance cost of Septic tank and Soakage pit are not necessary and capital cost for same is not required for future house planing
- Higher land value
- Improvement of living standard
- Reduction of stagnation of water and decrease the spreading of water borne disease such as Dengue, Barawa, Cholera
- Reduction of ground water pollution
- No overflow of gullies, no cost of clearing gullies
- Contamination of natural water bodies with untreated wastewater is limited

PHASE 2 – STAGE 1 OF RATMALANA/MORATUWA WASTEWATER DISPOSAL PROJECT

Implementing Agency - NWSDB
(National Water Supply and
Drainage Board)

Network Design conducted by NWSDB

Funder - AFD (French Development
Agency) & GoSL (Government)

Starting Date - Oct 2021

Ending Date - Dec 2025

Estimated Cost - 105.5 Euro Million

No of beneficiaries - 45,000 (2025)

No of service connections - 11,580

Scope - Expansion of existing sewer
coverage (127 kms with 06 new pump
stations)
